DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 15, 2004 has been entered.

2. Claims 16-19 are allowed.

3. The following is an examiner's statement of reasons for allowance: a method of manufacturing an electronic element is not taught by the prior art of record. The prior art of record fails to show, teach or suggest, alone or in conjunction, the based electrode material that increases the half-width locking curve of an X-ray diffraction peak from a (111) plane of the Aluminum in the intermediate electrode to greater than about 15 degrees.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
